## **FOR IMMEDIATE RELEASE**

### **Barcode Supply, LLC Acquires United Service Center and Wizard RF Suite Software in Strategic Growth Move**

**July 1, 2025 – Greensboro, GA** – Barcode Supply, LLC, a leading provider of enterprise mobility, barcode, and RFID solutions, proudly announces the acquisition of **United Service Center (USC)**, a renowned service and support provider for mobile computing hardware, and its flagship software product, **Wizard RF Suite**.

This strategic acquisition marks a major milestone in Barcode Supply's expansion into full-service lifecycle management and mobile device software solutions. By integrating United Service Center's national repair and support infrastructure with the powerful Wizard RF Suite platform, Barcode Supply positions itself as a one-stop solution for companies demanding greater control, visibility, and uptime from their mobile technology environments.

**"This is a game-changer,"** said *Jason Littleton*, CEO of Barcode Supply, LLC. *"USC has built a reputation for excellence in service and repair, and Wizard RF Suite is one of the most intuitive, customizable solutions on the market for managing RF device workflows. Combining our strengths means greater value, faster turnaround, and smarter solutions for our customers."*

The **Wizard RF Suite**—used by major logistics, manufacturing, and warehousing operations across the country—streamlines and automates key mobile device workflows, including configuration, deployment, troubleshooting, and lifecycle reporting. With the acquisition, Barcode Supply plans to enhance the suite's capabilities with tighter integration to its existing device deployment and support offerings, bringing powerful end-to-end management tools to enterprise clients.

#### **Key benefits of the acquisition include:**

- National repair & support services backed by Barcode Supply's infrastructure.
- Expansion of Wizard RF Suite capabilities with AI-driven diagnostics and real-time analytics.
- Seamless hardware/software solutions from deployment to retirement.
- Enhanced customer support, including expanded 24/7 services and faster SLAs.

**Jason Littleton** added: *“Our vision is to deliver not just devices, but full visibility and control. With USC and Wizard RF Suite, we’re making that vision a reality for companies who rely on mobile devices to run their business every day.”*

Barcode Supply will continue to support all existing USC and Wizard RF Suite customers with no disruption in service, while also expanding investment in innovation, development, and customer experience.

### **About Barcode Supply, LLC**

Barcode Supply is a premier provider of enterprise mobility solutions, specializing in rugged mobile computing, barcode and RFID technologies, wireless infrastructure, and lifecycle support. Headquartered in Greensboro, GA, the company serves clients across North America in logistics, retail, manufacturing, healthcare, and more.

### **About United Service Center**

United Service Center is a trusted national provider of repair, maintenance, and support services for enterprise mobile computing equipment. Known for its responsiveness, expertise, and the development of the Wizard RF Suite software, USC has supported hundreds of enterprise clients in maximizing device uptime and operational efficiency.
